

**WWF CORAL TRIANGLE PROGRAM  
(WWF CTP)**

2025 Reporting to SOM 20

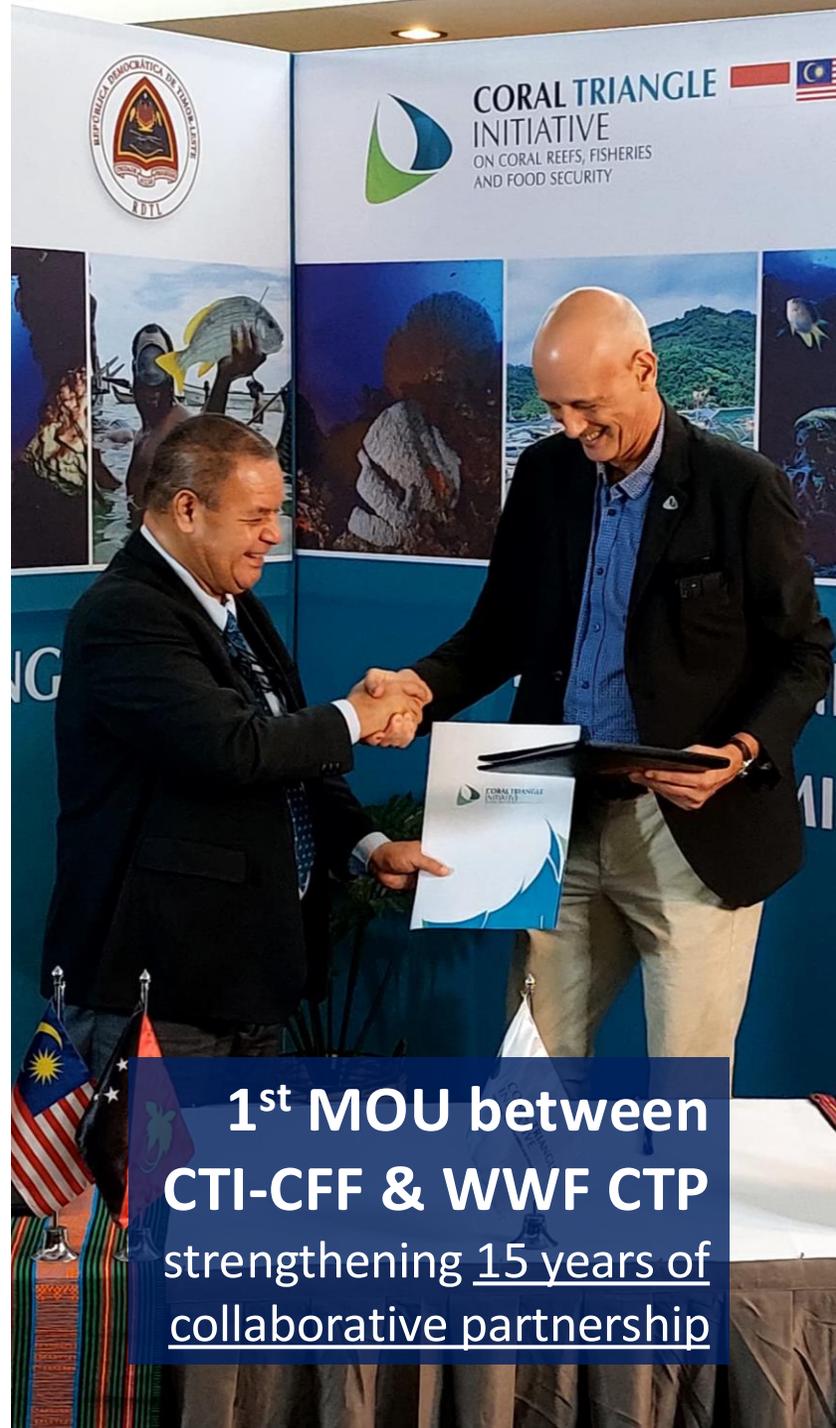

11 December 2025 @Bali

**Sustainable Fisheries Management – the ‘VIP Coalition’ for YFT**

**Research & Policy Development – Coral Triangle Waste Management Strategy Kick-off**

**1<sup>st</sup> MOU between CTI-CFF & WWF CTP strengthening 15 years of collaborative partnership**

**Seascape & Threatened Species Management**

## WWF CTP proposed actions with CTI-CFF in 2026:

- Developing the CTI-CFF Waste Management Strategy, co-funded between RS and WWF CTP
- Organizing regional learning exchange with focus on Plastic Smart Islands (Derawan) towards establishing Community Organizations Network
- Regional exchange on financial inclusion and replicating community-based saving initiatives
- Planning workshop and operationalizing the CT Network of MPA Managers
- Publication results from Blue Corridors for Turtles (BC4T) data analysis informing Important Marine Turtle Areas (IMTAs) in Coral Triangle

## Proposed Recommendation to SOM:

- **Consolidating updates from member countries, TWGs and partners against RPOA for tracking progress** will strengthen alignment, collaboration and priority setting
- Appointing a focal point from each member country as part of the development team for the Coral Triangle Waste Management Strategy will ensure a coordinated approach
